

## 一、看偏旁写汉字赛道

### I. Write Chinese Characters

汉字与世界上大多数表音文字不同，属于表意体系文字，也是迄今为止连续使用时间最长的主流文字。汉字分为独体字与合体字，合体字通常由两个及以上部件组合而成。本赛道考查选手利用偏旁写汉字的能力。本赛道不设置封闭统一题库，凡是符合偏旁要求的汉字，均可视为有效答案。

比赛过程中，选手需在规定时间内，根据给出的 5 个偏旁部首，书写带有对应偏旁的汉字。作答汉字数量不限，每写对 1 个汉字得 2 分，**单个偏旁不设置作答数量上限。**

评分标准：同一汉字重复书写，仅计一次得分。汉字出现多笔、少笔、结构错位、错字、别字的情况，该字不得分。

为便于选手备赛，本次竞赛考查的偏旁已整理汇总（详见附录 3）。

Unlike most phonetic writing systems in the world, Chinese characters belong to an ideographic writing system. They are also the major writing system with the longest continuous history of use to date. Chinese characters are classified into single-component characters and compound characters. Compound characters are generally composed of two or more components.

This event tests contestants' ability to write Chinese characters based on given radicals. There is no fixed or closed question bank for this event. Any Chinese character that meets the specified radical requirement will be accepted as a valid answer.

During the competition, contestants must write Chinese characters containing each of the five given radicals within the allotted time. There is no limit on the total number of characters that may be written. Each correctly written character is worth 2 points, and **there is no upper limit on the number of answers for any individual radical.**

Scoring Criteria: Repeated entries of the same Chinese character will be counted only once. No points will be awarded for a character with extra or missing strokes,

incorrect structural arrangement, an incorrect character, or a miswritten/incorrect variant character.

To facilitate contestants' preparation, the radicals covered in this competition have been compiled and organized in **Appendix 3**.

## 看偏旁写汉字试题样例

### Test Sample of Write Chinese Characters Based on Radicals

请写出带有下面偏旁部首的汉字。

Please write Chinese characters containing the radicals given below.

1. “亻” \_\_\_\_\_

2. “口” \_\_\_\_\_

正确答案：

Answers:

亻：你、他、们、住……

口：吃、喝、吗、叫……
